Street Smarts

This course is custom-tailored to the needs of the client customer who has employees who may be entering customers' homes or businesses to provide services or who work out on the street in various outdoor environments who may encounter crimes against their person (i.e. assault, battery, carjacking, theft, armed robbery, etc.) and would also provide the students with their company's specific policy and procedure for these incidents. Course length is approximately 1-4 hours depending upon size of class and additional content to be covered that is client specific.
