Creation or Revision And Training Of Post Orders For Sites, Security Command Centers/Security Operation Centers

This service is provided to contract security providers who may need assistance with developing or revising their Post Orders for client accounts. Upon creation or revision of the post orders, a custom-tailored training session will be developed to train all security officers in the new or revised Post Orders. This class is 1-4 hours in length depending upon the client specific content to be covered and class size.
