### **When And How To Fill Out A Security Incident Report**

This course is custom-tailored to fit the needs of contract security provider companies whose officers need refresher training on such protocol or to corporations with in-house corporate security teams that require employees to learn how to fill out a security incident report per company policy. Students are provided a handout with tips and tricks to reference when writing up a security incident report. This class is 1-4 hours in length depending upon the client specific content to be covered.
